Shelter WA, WA’s social and affordable housing peak, is a proud sponsor of the National Housing Conference 2015.

Shelter WA was established in 1979 to provide an independent voice on issues relating to social and affordable housing and homelessness for the housing community and housing consumers. As part of our work, we focus on:

- Advocacy and Input into Policy Development
- Research
- Communications and Engagement
- Learning and Development
- Awareness Raising

To engage with Shelter WA, please contact us on shelterwa@shelterwa.org.au.

In 2015 Shelter WA launched the WA Housing Hub, an innovative online platform for the housing community.

The WA Housing Hub has been designed to foster information sharing, generate discussion and promote collaboration and partnerships throughout the housing community. It also includes an online directory of housing and homelessness supports across the state to assist housing consumers and housing practitioners. For stakeholders in remote and regional areas, the Hub provides a way to access information and research, and participate in discussions, in a productive and innovative way.

The WA Housing Hub is living up to its purpose to engage with stakeholders across WA and interstate. Since going live the Hub has over 250 registered users, has held three scheduled discussion forums for our users, promoted 100 news and events articles, on behalf of our stakeholders, posted 75 research articles on our clearinghouse, linked approximately 900 clients with housing options and emergency services through our housing options and resources. To watch our video of the Hub in action, please click here.
